

**Sec. 1. Rural fire department surplus computer donation program. Resolved:** That the Department of Public Safety, Office of the State Fire Marshal shall create and implement a program in which computers used by State Government and scheduled for surplus are collected and distributed to rural fire departments as determined by the State Fire Marshal. A fire department receiving a computer donated pursuant to this resolve must use the computer to access the State's emergency and public safety databases.

This program must be carried out within existing resources. All hard drives in the computers must be completely erased before the computer is donated.

### **SUMMARY**

This resolve requires the Department of Public Safety, Office of the State Fire Marshal to create and implement a program to donate computers used in State Government to rural fire departments so that those departments can access the State's emergency and public safety databases.
